An efficient technique for figuring out a price is to send out a survey to your current customers. If these customers have already bought an e book from you, ask for their opinion by way of price. Do that by creating a gross sales web page for the brand new e-book, but don't include a value on that page. Another technique is to test out costs by making a variety of duplicate sales pages with totally different prices on each page. Make sure that your sales copy is strictly the same on every page, and consists of your selling-handle sentence. Then figure out for every page the conversion ratio between visitors to your website and sales of your book. This may let you know what your optimum worth is.

Finally, in case you've written a guide that solves a downside or presents a brand new approach,

your book will usher in both site visitors and profits. So you'll want to write that selling-handle sentence that sums up what drawback your ebook solves and what the benefits of your 1680 e-book shall be to the purchasers who buy it. And then watch your market come to you!
